JOINING THE PHILIPPINE QUILL AWARDS (continued)

For Divisions 1, 2 and 3, provide within 4 pages the following information, using the headings, in this order:

1. **Business need and opportunity.** Provide an overview of the project. What need or opportunity did your solution address? State relevant research and how it supports and guides the program.
2. **Stakeholder analysis.** Identify and prioritize your primary audience and other audiences. Make sure to segment the audience well and not just give phrases like “general public.” How many were you targeting to reach? Who will read your article, look at your website, buy your product, etc.? Describe the key characteristics (needs, preferences, demographics, etc.) that were taken into account in developing your solution. It is important to cite relevant audience research that led you to the solution.
3. **Goals and objectives.** What were your goals? Goals generally describe what you want to establish in a broad sense in terms of the degree of change in awareness, knowledge, attitude change or behavior. What were your objectives? Communication objectives should be specific, measurable, attainable, relevant and time-framed (SMART). They should not be action plans or tactics such as “Publish a book” or “Organize a student activity.” Aside from and more than desired outputs such as 100,000 shares, what communication outcome did this result in? Did anything change for the better because of the communication program? How did your objectives address the need or opportunity?
4. **Solution overview.** Summarize the solution and the logic that supported it. Tell us why you did what you did. Describe how your solution demonstrated insight and imagination. What were the most critical messages or themes to convey? State clearly your key messages or theme.
5. **Implementation and challenges.** State your role in the project and your level of involvement and responsibility. Did you partner or collaborate with other groups or subject experts? Did you consult your target audience or need to have approval for your project? What budget, timetable, and resources did the project use? Discuss your budget, resources, and timeframes, and show how each was used efficiently. What challenges did you encounter and how did you overcome these?
6. **Measurement and evaluation.** In what way did you achieve your objectives? How did your solution affect the need or opportunity? Demonstrate the effectiveness of your solution by showing increases in sales, traffic to a website, participation in an event, or other quantifiable outcomes that link back to your goals and objectives. Results must link back to the SMART objectives and goals.

For Division 4, the work plan will consist of answers to eight (8) questions listed below, each with a maximum of 600 words. The same font type - ARIAL - not narrow or condensed - and font size of not less than 10 points, and the margins no less than 0.5 inch (1.27 cm) on all sides, all apply. Please use the Division 4 Work Plan [template](#).
